The Hamlets long-term care home opens in Duncan

DUNCAN — Seniors in the Cowichan Valley now have improved access to 24-hour complex care in a safe, secure, home-like setting with opening of the Hamlets at Duncan on March 30, 2021. Residents are being moved into this supportive environment in a gradual manner.

Owned and operated by H&H Total Care Services Inc., The Hamlets at Duncan includes 80 new publicly funded beds and eight private pay long-term care beds.

“A supportive and caring community that cares for their seniors and vulnerable members is our top priority and near and dear to my heart,” said Mable Elmore, Parliamentary Secretary for Seniors’ Services and Long Term-Care. “It’s great to see this neighbourhood-style residence opening up for seniors in Duncan and the Cowichan Valley, and we’re proud to be able to offer even more community-based services to the people who built our province.”

The Hamlets was built using a neighbourhood design. Resident rooms are grouped into five neighbourhoods of 16-18 beds. Each neighbourhood features its own spa/bathing area and each room includes an ensuite bathroom that includes a sink, toilet and wheelchair-accessible shower.
